Project Design Phase-I
Proposed Solution Template

Date	19 September 2022
Team ID	PNT2022TMID08073
Project Name	Project – News tracker application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Multiple news sharing apps used by a single user and are often spammed with notifications There is lot of fake news which gets shared Storage (mb) should be reduced Categorization of old news Breaking news should be flashed immediately It shud be relevent and important news easily everyday Advertisements should be avoided
2.	Idea / Solution description	Providing customizable options to the topic for which he requires to receive notifications Customizable for avoiding the ada through giving customers options of whether they want or dosent need Reducing the storage can be done using giving only the user is required news alone To avoid fake news it will be selected only from the true and believable resources
3.	Novelty / Uniqueness	Our app is more user friendly and has a an ability to detect between fake and real news and the appearances of advertisements is very less
4.	Social Impact / Customer Satisfaction	Providing the details of the source from which the news has been collected and also reliable source to compare it with By continuously taking the feedback from the user regarding the notifications and any disturbance of ada and does it shows tge relevant and true news Avoiding unecessary ada and news All aged people can use the app with belief Feedback will be received from the customers always and wil be customized and will be done

5.	Business Model (Revenue Model)	Impression based (news)eg Newshunt shares the advertisement revenue on the news screen Transactions based (books ,magazine ,and singkes) ties up wth book and magazine publishers
6.	Scalability of the Solution	Maintains positve user experience Flexible and cost saving Security Quality control Insight Newstracker can be used also with cloud in which helps for storage of the databade
